

HAN501 & EH501 - Full Length & Extended Full Length Door Handle, 501

CONTAINS

DESCRIPTION	HAN501	EH501
	Standard Grip	Extended Grip
<u>DESCRIPTION</u>	<u>QUANTITY</u>	<u>QUANTITY</u>
Door Handle Assembly	1	1
Screws, #8 x 1/2 Finish Head	6	6
Handle Molding	1	1
Instruction Sheet	1	1

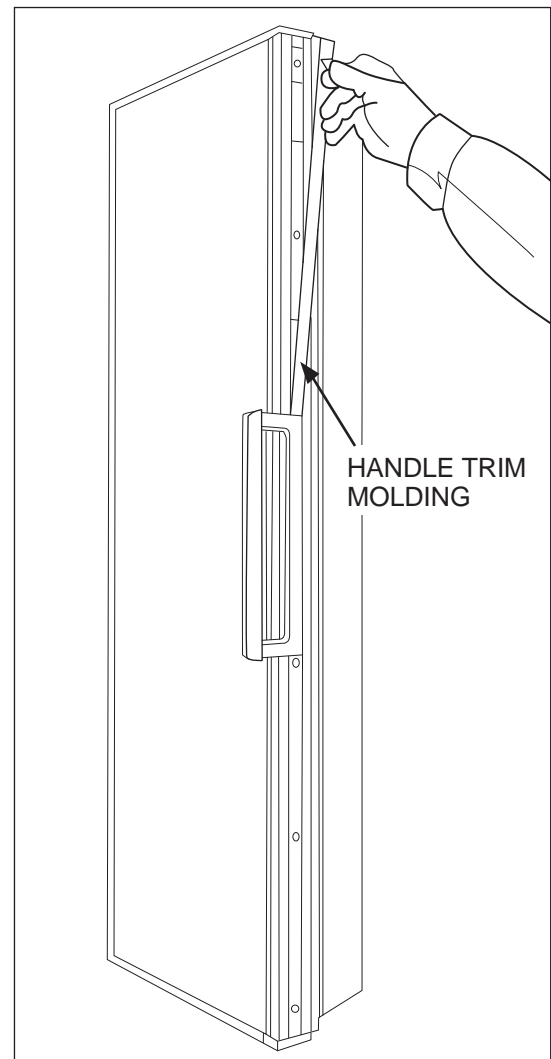

PROCEDURE:

1. Remove existing handle from door. First remove handle trim molding using a piece of adhesive tape to pull molding at midpoint between two end, then disengage ends from handle end caps. This exposes handle mounting screws (See illustration to the right).

▲ CAUTION

Check exposed edge of door for burrs or foreign particles which may affect fit.

2. Check exposed side of door for burrs or foreign particles which may effect fit of new handle.
3. Install new handle on door. Before tightening screws, adjust handle for best appearance.
4. Reattach handle trim molding by inserting top and bottom ends of molding into handle end caps, then release middle of molding to set magnets (See illustration to the right).

EXISTING "D" HANDLE IS SHOWN
